

INTRODUCING INVENTRONICS' WELL ROUNDED DRIVER SOLUTIONS

We are excited to announce that Inventronics recently released their portfolio of round-shaped drivers. While rectangular drivers are traditionally used, round drivers better and more compactly fit in niche environments including warehouses, sporting arenas, high masts, and hangers.

So, next time you're building a high bay light, build your customer a "well-rounded" product.

Details are shown below:

EUR DRIVERS

96w	150w	240w	Features	Benefits
			<ul style="list-style-type: none"> Available in 96W, 150W and 240W Full-load efficiency of 93% Programmable output current using software IP65 rated All-around protection (Over Temperature Protection, Short Circuit Protection, Over Voltage Protection) ENEC, TUV, CE, CB, CCC, PSE, KC, ANZ certified 12V auxiliary output 	<ul style="list-style-type: none"> Perfect for high bay and indoor court application Suited for round-shaped applications Less energy consumption Easier and faster assembly using programmer Suitable for rainy outdoor environment Foolproof mechanisms to override issues Accepted for use worldwide based on global compliance Provides power for complementary parts, such as sensor

HOW INVENTRONICS STACKS AGAINST THE COMPETITION

	Inventronics EUR-150SxxxDV	Competitor A 150W	Competitor B 150W
Digital Interface Programmability	ü	û	û
Diameter	15 cm	15.2 cm	15.2 cm
Surge Protection (line-to-line)	Up to 4kV	Up to 2kV	Up to 4kV
Auxiliary output	Yes 12V, 20mA	No	No
Efficiency	92.5%	92%	91%
THD	<10%	<20%	<15%
Outdoor use	ü	û	û
AOC Potentiometer	ü Adjustable post-assembly	û No change after assembly	û
Storage temperature	-40° ~ +85°C 5 ~ 100% RH	-40° ~ +80°C 10 ~ 95% RH	-40° ~ +85°C 20 ~ 95% RH

GET THE BUNDLE

We've simulated the perfect mix of LED lighting components to make your product come alive. For all products above, we suggest buying the **full kit** so you can plug in the sample and get started.
